Dear Mr. Pace:

This spring, during its national conference in Nevada, the American Association of General Contractors (AGC) recognized the Department of Justice project for excellence in partnering, and awarded the project a Special Recognition Winner of the coveted Marvin M. Black Partnering Award. Together with all other stakeholders in this project, your investment in teamwork and commitment partnering were key factors which helped make the project a success. Gilbane looks forward to working with you again in the future.

Sincerely,
